PERFORMANCE HOCKEY SOCKS

Rinkware's performance hockey socks are made from high-friction poly microfiber allowing them to be more durable and more breathable than traditional knit or mesh hockey socks. Lower-thigh interlocking inserts allow for better mobility and comfort, while Ankle interlock inserts enhance abrasion resistance at the bottom of the sock. A&R offers these socks blank for matching with A&R's full color logo jerseys, or with logos applied to the socks for a professional fully decorated practice jersey/sock set up that will have teams looking uniform from head to toe.
